

## **WEE Ones Nursery - We are open!!!**

Children and staff who show symptoms of COVID-19 (high temperature of 38 degrees and above, a new continuous cough, loss of smell or taste)- will be sent home and are allowed back only if they have a negative Covid-19 test result.

Children will have their temperature checked when they arrive in the morning and they will wash their hands before sitting down at the table.

Staff wear masks when moving around the nursery and in situations where social distancing between adults in the setting is not possible, we will still be careful (e.g., helping on other floors, giving feedback to parents, etc.)

All staff wash and sanitize their hands as often as possible.

We minimise mixing within the setting, for example where we use different rooms for different age groups, we keep those groups apart as much as possible (in two separate rooms but on the same floor) and for a very short time.

Parents are requested to wear masks, sanitize hands, and keep social distance at drop offs and pick-up times.

Parents must be vigilant and have themselves and the children tested if they show any Covid-19 symptoms.

Parents must notify the nursery if any member of their household has tested positive. If yes as per government guidelines the whole household (including children) will have to self-isolate for 10 days. We kindly ask parents to submit a copy of their test results so we can have it on record.
